

## Management.Services 'Pool Clearing'

Successfully marketing one destination jointly calls for secure and proper distribution of the flow of funds between partners. Make sure your pool is transparent. The convenient and flexible billing functionality includes plausibility check.

### Intuitive configuration

- **Keep a firm grip on complex models** – every pool is provisioned differently. The computational logic can be adjusted easily.
- **Easily define billing mode** – how you bill, for example, whether by time or trip, is up to you. And if you need help with configuration, we're there for you.

### Transparent results

- **Monitoring made easy** – the plausibility check prior to billing and the cross-check with analytical reports provide transparent, exact, coherent results at any time online or at business close.

### Simple, secure operation

- **Designed by experts to suit your needs** – you don't need to be a professional accountant. SKIDATA experts will set up 'Pool Clearing' to match your needs perfectly.
- **Flexible adjustment** – changes in the pool? No problem. 'Pool Clearing' can be adjusted easily and securely. Our service teams will be pleased to assist you.

### Billing made simple, cooperation made easy

- **Precise billing** – with 'Pool Clearing' you bill all your services in a pool quickly, securely and accurately.
