Swords Pavilions Shopping Centre

Ireland

Swords Pavilions Shopping Centre

The Pavilions Shopping Centre situated in Swords, Ireland, just 7km from Dublin city center is equipped with over 90 stores and 11 screen cinemas on more than 500,000 square feet, over 2,000 parking spaces, and boasts an annual footfall of over 12 million customers a year.

It is ranked among the top five shopping centers in the country. As the customer journey starts at the car park it was crucial for the shopping center to partner with an access system provider that offers smart and designer-quality parking systems.

Swords Pavilions Shopping Centre

Shopping Centers

Ireland

Project description

The Swords Pavilion required an access system for their car parks that is future-proof. SKIDATA, in turn provides smart systems and additionally supports the shopping center with further commercialization.

The skiosk Smart installation gives Swords Pavilions the opportunity to monitor and control their car park and helps for better customer satisfaction and customer journey.

Swords Pavilions appreciates the delicate process of planning and installing the system with SKIDATA and how well their requirements were satisfied.

In a short period, SKIDATA was able to install a system into their car park that fits the functionality of movement.
