

# Regensburg Arcaden

Regensburg (Germany)

A veritable shopper's paradise, Regensburg Arcaden offers a plethora of shops and restaurants right in the town centre. Perfectly situated in one of Germany's most popular towns, the modern building complex attracts shoppers of all ages.

Regensburg has a relatively large catchment area with a population of 514,000, many of them regular commuters travelling by car between the old and new parts of town. Businesses therefore depend on the ability to offer exclusive parking in central locations in town. In total, Regensburg Arcaden offers around 1,500 in-house spaces for parking customers. With convenient parking available right next to the stores always makes shopping there a particularly pleasant experience.

## Project Details

<b>Installation date</b>	Spring 2002
<b>Operated by</b>	Central Parking System Germany
<b>Automatic Payment Machines</b>	11
<b>Pay Stations</b>	1
<b>Entrance Columns</b>	6
<b>Exit Columns</b>	6
<b>Parking spaces (total)</b>	1,500
<b>System application</b>	APT 450
<b>Data carriers</b>	Barcoded, Keycards

Requiring a reliable, professional parking access and revenue control solution, the operators chose SKIDATA as their provider. To take the stress out of the search for a parking space, a parking guidance system helps arriving parkers to navigate to the nearest empty space.

Shoppers can use the short-term parking section, whereas staff have their own reserved section, which they can access with a special long-term permit. Patrons can pay their parking fee by credit card at the exit gate - a convenient feature that not only makes things as easy as possible for patrons, it also makes parking at Regensburg Arcaden an experience to be remembered.

## Special Feature

- Discounted and free parking via in-shop validation (SKIDATA Thermal Validation Stamp)
- Enhanced patron convenience with intelligent automated parking guidance
- Long-term permits for all staff at Regensburg Arcaden and VIP patrons; contactless entrance and exit with SKIDATA Keycards
- Credit card payment at the exit gate
