

iSkipass

Put the popular iPhone to work for you with an exciting new booking platform.

Three ways to increase your revenue

- Get access to a whole new distribution and promotional channel.
- Utilize dynamic pricing as an incentive.
- Have money in the bank earlier with pre-bookings.

Implementation couldn't be easier

- No investment in infrastructure required – just use existing passes.
- iPhone 4 compatible - configuration services provided by SKIDATA AG.

A great holiday at your guests' fingertips

- One app for all destinations - register once and enjoy them all.
- Paperless bookings can be made on the go.
- A chance to beat the queues and head straight to the gate.

Give yourself a competitive edge

- Access to valuable customer data to inform future one-to-one marketing activities.
- Position yourself as dynamic and progressive by adopting this exciting new channel.

Properties
