keycard advanced

The reusable RFID card that provides comfort for your customers and many business benefits for you.

Great Comfort for Your Customers

- The card into the coat jacket and off you go! Using the most modern RFID technology, it enables contact-free access.
- Bundle products and enable your guests' access to various facilities and services with just one card, e.g. ski, hotel, parking.

More Security

- Optional: Personalize the card using a 3rd party thermo-transfer printer with the name and photo of your guest for preventing fraud.
- Just as with credit cards, imitation and copy protection is ensured by transaction security, password protection and data encryption using the most modern cryptographic methods.

The Business Card of Your Business

- Design the card according to your needs and your corporate identity.
- Lots of space for advertising: The card can be printed in color using thermal transfer printing and color ribbons on both sides.

A Strong Card

- The keycard advanced ist an extremely durable card that resists extreme temperatures and can be used for many years.
- Available in credit card and XL format size.
