## keytag

The state-of-the-art access solution for regular customers. User-friendly, easy to operate and environmentally-friendly, keytag is easy to mount and is PVC-free.

### The optimal long-term solution

- **User-friendly**  
Particularly easy handling: Attach the self-adhesive keytag to the windshield – and you're done!
- **Smooth Access and Exits**  
Instead of opening car windows, presenting tickets or pressing buttons, simply drive through. keytag identifies users on a contact-free basis.

### High-tech and environmentally-friendly

- **Sophisticated**  
keytag combines several proven access technologies from SKIDATA in a single ticket.
- **Good for the environment**  
keytag is made PVC-free. Your and our part to being more environmentally friendly.

### All-in-one

- **Versatile**  
Works with keytag number, barcode and RFID at all entrances and exits.
- **Compatible and far-reaching**  
keytag is compatible with all certified SKIDATA readers. The RFID chip works over several meters.

### Convenient and secure

- **Ad space**  
Turn keytag into your advertising platform.
- **Your company's calling card**  
You can also customize keytag to match your corporate design.
