

keywrist basic

The waterproof, reusable RFID wristband that gives you access to some unique business advantages.

Make the most of a deposit business model

- Get extra cash in the bank by charging a deposit to issue reusable wristbands.
- Low-cost investment due to its reusability.
- The highly durable construction withstands all sorts of extreme conditions.

Visible Difference

- The keywrist basic is available in dark blue, light green, red, yellow and black.
- Visually differentiate various groups with different colors, such as children or VIPs.

One product, many uses

- The wristband can be used in different places and for additional services, e.g. in amusement parks with additional parking space management.
- Multiple applications allow you to bundle products and form valuable business partnerships.

Maximum comfort

- Users benefit from the ease of use – ideal for water parks and baths.
- You'll appreciate fast scanning of users through gates and security features to minimize fraud.
