

DoorReader.Gate

Convenient access for all types of users and applications.

A reader with a wide vocabulary

- Reads all barcode and mag stripe tickets including credit/debit cards – you select the functionality.
- Optional RFID enables keycard functionality for contract users.

Access all areas

- Link to external systems like door, roller shutter gate, alarm, video, etc. for seamless operation.
- Control access by linking it to centralized monitoring systems like Operator.Services or Parking.Logic.

Smart solutions for local applications

- Mount inside cavity to reduce depth to 36 mm (1.42").
- Mountable on walls or self-made stands.
- Enable entry for people or vehicles – ideal for section access.

Small package that's big on features

- Intercom help at the push of a button.
- Weather tolerant design with a sheltered reader slot.
- User-friendly illustrations facilitate simple swiping.
