

SD100.Gate

Security in Style

The SD100.Gate is the perfect solution for access to VIP lounges, sky boxes or suites and enhances productivity, efficiency and comfort.

Secure

Protect yourself effectively against misuse: with the SD100.Gate, you have the security of knowing only authorized persons can grant access to the respective area.

Efficient

The SD100.Gate eliminates manual control and reduces required resources. Guests scan a valid ticket and simply enter the area.

Intuitive

Installation, handling and maintenance are simple and convenient. The device is wall-mounted and powered via a secure network cable (power over ethernet).

Classy

Adapt the stylish design to your specific needs: the large screen is perfect for displaying advertising or information.
