

Customer Display 8"

Transparency
and control

With the Customer Display 8", details about the purchase as well as messages for visitors or any other information are presented attractively and clearly. An added value for buyers and sellers.

Reliable customer communication

The customer sees quickly and clearly which items are in his shopping cart. Up to 5 articles are displayed at a time. Additional helpful information - such as availability notes or advertising texts - can also be shown on the display.

High-resolution display

The high-resolution 8" TFT display with anti-reflective display provides sharp and easy to read text in all lighting conditions.

Flexible use

Thanks to the height-adjustable stand and the tiltable display, the device can be ideally aligned with the viewer and can be adjusted to accommodate the specifics of the installation site.

Easy to use

Hooking up the display to the Touch.Cash is done quickly and easily via a 2-way USB connection.
