sweb[®] Contract B2C

Contract Parking
made easy!

With sweb Contract B2C customers make their own contracts and you only approve them. This means more flexibility for your customers and saved labor for you.

Save time and reduce costs

Reduce administrative costs and efforts. Your customers take responsibility for managing the parking contracts for themselves and their other parkers.

Anywhere, any time

Independent of fixed office times or locations – ready to use anywhere, any time. All you need is a standard Internet connection.

Get to know your customers

Turn anonymous visitors into known customers. Fine-tune your rental agreement to your target groups and address your parking customers directly.

Impressive customer convenience

As parking operator, you only define the conditions of contract for parking agreements that can be booked online. Your customers take care of the rest with easy, transparent step-by-step interaction. Monthly rental fees are debited automatically.
