sweb® Analyze 'Parking'

Customize data with intuitive dashboards

Realize the full potential of your key performance figures with a flexible dashboard solution. Easily customize your relevant data and gain detailed insights on financial and operational patterns for effective decision making.

Ready-to-use management dashboards

Key figures and business data are clearly presented on management dashboards designed for interactive use. At a glance, capture all the important figures needed for your target-oriented analysis.

Trend analyses

Discover and interpret meaningful patterns, allowing you to more precisely assess future developments and to identify opportunities and risks earlier. Exercise proactive operational control – today and in the future.

Drag & drop customization

With the optional “Customize” module, easily individualize the dashboards to match your specific requirements, using a drag & drop feature to immediately see the information you really need.

Well informed – anywhere, anytime

Responsive dashboards cover data from all your facilities and displays information at your fingertips, on any device – whenever you need it. All it takes is an internet connection – no need for extra software.
